

Security Labels

Secure valuable assets and deter theft with Metalcraft's Security Labels! Made from a destructible material that tears apart if someone tries to remove it, these labels offer customers a unique way to protect their property. The coating featured on these labels not only aids in the destruction of the label but also protects the bar code and/or copy from cleaning as well as mild abrasion. Add a bar code and/or human readable number to the label and use it as part of an overall asset tracking system.

Available with or without a bar code, Metalcraft's Security Labels are produced using our digital printing process, which shows off even the most detailed logos, type, and artwork. Custom spot colors and four-color processing are also available at an additional charge.

Key Product Features

- Destructible material tears apart if removal is attempted deterring theft or unauthorized asset transfer
- Unique coating aids in destruction of label and protects bar code and/or copy from cleaning as well as mild abrasion
- Durable polyethylene material easily conforms to uneven or radius surfaces
- Digital printing process ensures bar code readability as well as crisp, clean company logos
- Custom spot colors and four-color processing are also available at an additional charge

Security Labels Specifications

Material: .002" destructible polyethylene that can withstand intermittent temperature exposure to 176°F.

Serialization: Bar code and human-readable equivalent is produced using the latest high-resolution digital technology available, which provides excellent clarity and easy scanning. Code 39 is the standard symbology with a range of 2.7 to 9.4 CPI (characters per inch). Optional symbologies include Code 128, I 2 of 5, 2D DataMatrix and QR Code.

This product is also available with human-readable numbers only or with straight copy.

Label Copy: The label copy may include block type, stylized type, logos or other designs. All bar code, human-readable numbers and copy are protected by a destructible coating.

Colors: Standard colors include black, red, yellow, green or blue. Custom spot colors also available for an additional charge. Due to contrast needed for the bar code scanner, all bar codes are black.

Standard Sizes:

No. 019: 2" x 1" No. 033: 1 1/2" x 3/4"
No. 191: 2" x 5/8" No. 277: 2" x 3/4"
No. 029: 1 3/4" x 5/8" No. 123: 1 3/4" x 1/2"
No. 254: 1 1/4" x 1/2" No. 694: 2 3/4" x 1 1/4"

Adhesive: .0009" precoated pressure-sensitive adhesive. Minimum application temperature of 50°F.

Packaging: Shipped on convenient rolls with scrap matrix removed for ease of removal. Cleaning solution is provided to assist in applying to a clean surface. Cartons are clearly marked to indicate serial numbers of labels.

Shipment: 6 work days upon receipt of order and proof approval.

To Order: Call **1-800-437-5283** and ask for customer service.

Test Results

These tests were conducted for a limited period of time in strict laboratory conditions. In order to achieve maximum satisfaction we highly recommend that any customer considering use of this product test the labels in the environment in which they will be used.

Bar Code Readability Test: This rating measures bar code readability after being exposed to chemicals listed below for a 2 hour soak.

Test Conditions	Rating
Acetone	15
Isopropyl Alcohol	90
Speedball Power Cleaner	100
Glass Cleaner	100
Water	100

Chemical emergence tests are rated on a scale of 100 to 0:

- 100 = No Effect
- 75 = Image Blurred
- 50 = Image Scratches Off
- 25 = Image Wipes Off
- 0 = Image Destroyed
